

SE Region and KCAFU Policy on the proposed change to the foil target.

The introduction of the new foil target was discussed at the recent EGMs of both the South East Region and the Kent County Amateur Fencing Union.

It was decided that for next season for both South East and Kent closed events the Guidelines issued by the BFA would be followed and the new target for foil would not be operative. Therefore, the bib on any mask need not have a metallic (Lame) covering.

It was further agreed that whilst any fencer who wished to use a new mask with a metallic bib could but they would do so at their own peril in that any hit that was recorded would be classed as a valid hit.

The full text of the BFA guidelines is attached.
